

Van and RV overnight reset

Use after arrival, before sleeping and after waking. Mark N/A only for equipment not fitted; still name the facility or alternative that meets the need. This reset supports your vehicle-specific procedures and never authorizes an uncertain setup.

Record	Your information
Date and stop	
Travelers and responsible person	

- ☐ Authorized overnight location, access hours and exit route checked. Alternate: _____
- ☐ Tonight's toilet and handwashing arrangements verified, including overnight access. Alternative: _____
- ☐ Safe water, waste headroom and energy checked against next services. Earliest constraint / leave-by trigger: _____
- ☐ Bed ready; clean bedding separated from wet or sanitary gear; exits, required vents and alarms unobstructed.
- ☐ Cooking finished; food stored safely; exterior gear and any raised roof handled for forecast and fitted-equipment limits.
- ☐ People and pets accounted for; keys, light, footwear and essential care supplies reachable; temperature and supervision plan workable.
- ☐ Morning: moisture and visible leaks checked; wet items have a drying plan; current resources, weather and travel readiness rechecked.
